

Date:

Wednesday Challenge Form

Group Members: ENTIRE PERIOD 4

Problem Statement:

Assemble a cube under a blindfold

Approach:

Cole O'Bryan is the real one to thank on this one. Dr. Neat commented that on period fives had multiple leaders, and they gave orders that contradicted each other. We're lucky we had ONE voice.

Other than that, Roy developed a plan to clap and to coax your blinded teammate. It actually worked! Good job guys.

Solution: Synchronized teamwork makes a BIG difference

Lessons Learned: Only one could be a leader.
